

FM3 Tuner (production from 1971-1982)

Features

- High quality stereo FM (VHF) tuner. Simple operation as the only front panel control is for station tuning which can also be used for setting the movable station markers (useful for station location).
- Has a large clear tuning scale and indicator lamps show when it is accurately tuned to a station and when a stereo signal is being received.
- There is a preset noise suppression control at the rear which when correctly set enables for silent tuning between stations.

Specification

Controls:	Tuning, Interstation Noise Suppression
Output:	100mV to control unit
Dimensions:	260mm wide; 92mm high; 165mm deep
Weight:	3.5Kg
Finish:	Brown
Audio Sockets:	5-pin DIN
Aerial Sockets:	75 ohms coaxial; 300 ohms balanced

Main Accessories/Spares

Description	Spares ref.
