

FMII Tuner (production from 1968-1971)

Features

- High quality stereo valve FM (VHF) tuner. Simple operation as the only front panel control is for station tuning which can also be used for setting the movable magnetic station markers (useful for station location).
- Has a large clear tuning scale and indicator lamps show when it is accurately tuned to a station and when a stereo station is being received.
- Hybrid design (valve tuner, transistor stereo decoder).

Specification

Controls:	Tuning
Output:	100mV to control unit
Dimensions:	260mm wide; 92mm high; 207mm deep
Weight:	3.5Kg
Finish:	Brown
Audio output:	5-pin DIN (captive cable)
Aerial Socket:	Coaxial (75 ohms)

Main Accessories/Spares

Description	Spares Ref.	
Scale lamp	BB12VLA	
Stereo/tuning indicator lamps	BB12VLB	
LED conversion kit	QF12LDA	replaces tuning neons
Coaxial aerial plug	PPL7314
